Amazon Customer 5.0 out of 5 stars Swapped the bands out, much better. Now if I could just find a replacement bezel the colors would match.Durable and strong is the main thing so hopefully will last a while. Plus easier to keep clean than the original white strap.Check out a you tube video before you attempt to change the band as I found out you dont need a screwdriverBe aware your watch colour would have faded and a little different from the fresh blue of these new straps. But otherwise a great way to keep wearing your favourite Baby GSorry, we failed to record your vote. Please try again. Amazon calculates a product's star ratings using a machine learned model instead of a raw data average. The machine learned model takes into account factors including the age of a review, helpfulness votes by customers and whether the reviews are from verified purchases. Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Band itself seems fine but I wouldnt have purchased it had I known Id need to purchase another tool to use it and I have lots of small jewelry making, gunsmithing, etc.Sorry, we failed to record your vote. Please try again The resin straps are great, very nice quality. The spring bars in the replacement strap are inferior quality, as is the plastic buckle, which is pictured here. I say this because when the straps arrived, I didnt look it over carefully, and almost I almost tossed the original straps before retrieving the metal parts. The plastic buckle is a pain, believe me you dont want to use that. If you use the original metal parts with the new resin, the result will look nice and function well.Sorry, we failed to record your vote. Please try again It also sort of fits the elusive version my wife wears, with an imperfect match at the body, the width was fine the important part. The only other important thing is, this band was GLOSSY and not your typical flat black Casio style. So if you dont want a shiny, high gloss black band, keep looking. If you cant find your model anywhere, dont give up. Figure out how wide your band is where the posts attach 14 mm, 18mm etc. and find a matching width. Itll work, worst case with a little trimming. Or you can just go buy a new one. Which is probably why Casio does it!Sorry, we failed to record your vote. Please try again Hope

it fits, I haven't been able to replace the strap on the watch.<http://goodwillintlhr.com/userfiles/buick-century-2002-service-manual.xml>

I need to buy the tools now; as Corona virus have all stores including watch repair store closed. Sorry, we failed to record your vote. Please try again I wish it came with instructions and maybe a tiny screwdriver. However with a little help from YouTube my watch is 100% glad I didn't buy some other one I was looking at. Please try again You need to watch a video or two first. It was frustrating for me, a seasoned home repairer and tinker. But now that it is on, Great fit for her and seems like brand new. Sorry, we failed to record your vote. Please try again This product has been peeling. Don't buy because you will be replacing it every few years!!!! Sorry, we failed to record your vote.
