Register a free business account Full content visible, double tap to read brief content. Please try your search again later.Enhancing small and home office operation, Canon's imageCLASS D480 provides allmode duplex capabilities for printing, copying, scanning and receiving faxes. With this duplexing capability, customers will be able to significantly reduce paper consumption by duplex printing documents from a PC, or on incoming faxes. The unit also allows users to copy two singlesided pages to doublesided output or doublesided pages to doublesided output. The Canon imageCLASS D480 produces quick results in a featurerich compact package. View larger. Networkable The imageCLASS D480 also provides network capabilities in an affordable compact package.

Smart Paper Handling The D480 boast print and copy speeds of up to 23 pagesperminute ppm for lettersized output, and delivers Quick First Prints or copy pages in approximately nine seconds. Load paper easily in the 250sheet paper cassette and your black and white output comes out crisp and fast. A 50sheet Duplex Automatic Document Feeder DADF handles big jobs easily, copying up to

legalsize documents. Reduce and enlarge, collate or make draft copies from the easy to use control panel. Multifunctional The imageCLASS D480 prints sharp monochrome text with resolution up to 1200 x 600 dpi. Through use of the platen glass or the Duplex Automatic Document Feeder DADF color scans are captured in 24bit color at an interpolated resolution of up to 9600 dpi. The new device also transmits documents seamlessly and quickly with Super G3 Fax, reaching speeds of approximately 33.6 Kbps. It features eight onetouch speed dial numbers, 100 coded speed dial numbers, 256page memory capacity, PC Faxing, and twosided output combine to provide a robust fax solution in a compact desktop design. Single Cartridge System The imageCLASS D480 also incorporates the Canon Single Cartridge System, which combines the toner and drum in one easytoreplace unit, resulting in excellent image quality retention and eliminating the complication and warehousing of separate toner and drum consumables. What's in the Box Setup instructions, Canon drivers, RJ11 fax cord, registration card, Cartridge 104, manuals, NetSPOT Device installer, power cord and warranty card. View larger. The Duplex Automatic Document Feeder DADF lets you easily produce twosided documents from onesided originals. View larger. The D480 provides effortless control with many of the features accessible through onetouch buttons. View larger. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average.

Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Mighty Messenger 4.0 out of 5 stars So I looked for a laser multifunction. Canon is rated best in most printer reviews. But I also wanted one that was networkable so that I could print from my laptop without having to turn on my desktop computer. Well, Ive had the D480 over 2 months and I really like it. Its like having an office copier, laser printer and scanner next to my desk. I have not used the fax function so cant report on it. For all it does, it does not have a large footprint and space is limited for me. It comes alive and copies or prints very quickly. Everything I have printed and scanned has been very clean and professional document quality. Paper handling has been perfect. I am very happy with its perforance. Only problems I had was with documentation. 1Network Configuration was unclear and incomplete. After repeated efforts, I called Canon support. They were excellent, spoke English, were not in a rush to get me off the line, and knew exactly how to walk be through the network installation. That support is worth a lot these days. By the way, the rest of the documentation was good. 2 Scanning Software is minimalist when scanning on a network configuration and the documentation was unclear. It works but is bare bones. The unit can be hooked up directly to a PC with a USB cable and the software for that kind of configuration seemed more robust and user friendly. Maybe Ill purchase a separate software package for scanning.If I need a color printout Ill have to clean again. Too bad the printer didnt have a 2 port hub built in. The best feature is the 2 side printing. I set it at 2 sided for all documents and then when printing invoices if it requires 2 pages it fits on 1 automatically. Another feature is the ADF feeder and ability to create 2 sided documents from 1 sided.

Does it get any better than this!!! Just hope it holds up as good as my Pixma 780I am a IT pprofessional so after spending time and asking my colleages I was able to get going with scanning via USB and wireless but with my kids MacBooks, even I wasnt able to do scanning via wireless. Called canon technical support, I dont think none of these people know anything about hardware or software.My advice, If you know computer well then buy it.After one day, I really appreciate the frustration from those users complaining its bundled software and manual. Frankly, I learned more from the reviews in Amazon and Canon websites than from the manual. Copying using this printer is the easiest thing to set up. Plug in power and you get a pretty decent copier. Network printing is not that bad either. Just install the most recent driver downloaded from Canon website, you will get a very decent network printer. However, setting up the network scanning is really painful, it took me almost one day to get it right. Here is how to make it work. Then download and install XnView suggested by other users. Open the installed XnView software and click file menu and choose

Acquire only. Then the Color Network ScanGear window will start and allows you scan from the D480 device. The scan speed through the network is not that slow as complained by some other users. I am pretty happy about the scan quality. Oh, another thing, be sure to install the firmware V072 update software, this will eliminate the automatic switching back from Scan to Copy mode. After all these efforts, I am satisfied about this device. However, I think Canon should update their bundled software and manual to make the installation of such a good machine easier.I followed the manual and had no problem getting to wrok in 10 minutes, I am using it as a network printer, I cant believe what I paid for it considering my ink cost per page is about three cents per page compared to 40 cents for my ink jet.

I also want to let people know about my experience with Canon customer service recently WOW, they went above and beyond to help me responsive, polite, local and guess what they actually solved my problem with no hassle I will always buy Canon I want to use it for scanning as well, but I have not read this part of the manual yetPage 1 of 1 Start over Page 1 of 1 In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading.
