everything from presentation supplies to operate in the continental United States and Canada, 24 hours a day, or visit our Internet Website.The use indoors, using 3M lamps, 3M ceiling mount.This projector is not intended for use of other replacement lamps, outdoor operation or different voltages has not been tested and could result in Guides The following terms are frequently used to search for 3M X75 support. This remote provides you a full control of your 3M X75 projector. Install 2 AAA remote control batteries Before getting the remote control to work on your 3M X75 projector, please install two new AA batteries. And don't forget to remove the batteries from the remote if you will not use the remote for a long period and keep them in the safe place. Holde the hook part of the battery cover on the back side of the remote. Remove it to open the cover. Align and insert two new AA batteries. Please follow its plus and minus terminals as indicated in the remote control. Reinstall the battery cover in the direction of the arrow and snap it back into place. How to fix if the remote control does not work on your 3M X75 projector. Sometimes, the replacement remote control may not work on your projector when you use it for the first time. In this case, we have to find out the reason that makes it not function. Test the remote control First, let's test or check if the replacement remote control was broken when it was on the international shipping way.

To test the remote control, open your phone camera If your camera is iPhone, please ensure to test on the front camera which is located on the iPhone screen side and point it at the projector remote control signal InfraRed light on the top of the remote. And then, press any key of the remote to check if you could see the InfraRed light flashed on the phone screen. If you could not see the InfraRed light, please check the batteries plus and minus terminals. And please contact us if you confirm the batteries were installed correctly. Use the remote control near the projector's remote sensor Secondly, the remote control works with the projector's remote sensor. After testing the remote control InfraRed light work, confirm that you are using the remote. Generally, most of the projector's remote sensor is located in front side of the projector. The sensor senses the signal within 60 degrees range 30 degrees to the left and right of the sensor and 3 meters about. Therefore, you have to ensure to use the projector remote control within the sensing area. Changing the remote control signal frequency In most of the projector remote controls, they have two choices of signal frequency mode. For the 3M projector remote control, it provides two different signal frequency mode the factoryset initial mode 1 Normal and mode 2 High. The switching function is to prevent remote control interference when operating several projectors or other videos devices at the same time. Furthermore, when you change the frequency of the remote control signal, please remember to set the same mode in your projector's REMOTE FREQ. For further information on how to do this, you need to read your projector manual on chapter Remote Control Code. You should update your web browser to a more recent version.Attempting to reconnect to the server. Try reloading this page. You you will need to refresh the page to see those changes! Watts We do not accept CC over the phone. By placing a bid on this auction, you are agreeing to the auction specific terms listed on this page in additions to the KBID user terms and agreements. Affiliates are not employees, agents, representatives or partners of KBID Online, Inc. KBID's knowledge about individual auctions and individual auction transactions is limited to the information appearing on the website. Bidders are responsible for bids placed on their account. Removal day is not inspection day. When an auction ends, and the winning bidder invoice appears on the bidder's dashboard, the bidder is obligated to honor their bids. You are responsible for inspecting items prior to purchase. Once a bid is placed it cannot be retracted. Duplicate bidder accounts will be deactivated when they are determined to exist. If possible and at our discretion, KBID reserves the right to delete any bid we believe has been placed by a suspect bidder. Any registration that shows

up on our fraud detection system may be placed on hold and bids removed until the user is verified. KBID Online, Inc reserves the right to disallow anybody from bidding on its website. Cases of obvious bidding with no intent to redeem will be referred to appropriate legal authorities. If the reserve is lowered while the auction is in progress, the applicable reserve message will appear below the Next Required Bid information Reserve Not Met or Reserve Has Been Met; the asset will sell to the high bidder if the lowered reserve amount is met. If the reserve is lowered after the auction closes, the highest bidder at auction close will receive a winning bidder invoice. How can I get it How can I get it Generally the only way to get a service manual is to contact the manufacturer and pay for it.Is there a download for it somewhere. To my knowledge this manual is available on paper only.

What I have a SANYO PLVZ700 projector that does not power on even though the power indicator turns solid green from solid red. The fan and bulb do not turn. Thanks for your help. You have to contact the manufacturer. Answer questions, earn points and help others.
